

ARIZONA-SONORA DESERT MUSEUM

The New York Times refers to it as “the most magnificent Saguaro forest in the world” and it is Southern Arizona’s most popular visitor attraction. Nestled in Tucson Mountain Park 14 miles west of downtown Tucson, the Desert Museum exhibits the world of nature from fauna to live animals found in the Sonoran Desert region.

On your way to the museum, you will weave through Saguaro National Park, the most magnificent Saguaro forest in the world. The great Sonoran Desert region is filled with natural beauty and mystery and this outing provides a unique opportunity to see its comprehensive collection of plants, animals, and geology. This tour is an outdoor experience that requires walking.

JEEP TOUR

Ride through the desert with the wind in your hair and the sun on your back during our fun-filled, educational, four-wheel-drive jeep tour.

The tour begins when your guide arrives at Loews Ventana Canyon Resort to lead you through some of the most beautiful and rugged desert wilderness surrounding Tucson as you travel from civilization to primitive country inhabited only by wildlife and ghosts of days gone by.

The ultimate way to "sink your teeth" into the Sonoran desert! Take a Four-Wheel-Drive to the upper Sonoran Desert and meet first hand, the indicator of the Sonoran, the Giant Saguaro Cactus. Stand at the base of a 30 foot Saguaro and learn of its growth, the natural habitat and the Indian legends surrounding this amazing beauty.

Your Cowboy or Native American Guide will entertain you as you learn the more modern "Wild West" history of the Arizona Territory, complete with stories of the outlaws, gunfighters, lawmen and range wars of this last-to-be-tamed territory.

Once deep into the desert an experienced Naturalist will lead the group on an extensive nature walk through the desert where you will learn about plants and cacti which are unique to this desert. He will talk of the ancient history of the desert and how the Native Americans used the desert plant life for thousands of years for food, medicine, tools and raw materials for much of their daily needs. You will also learn about the fabled "Water Cactus" (the real truth about it), and the one you can actually get moisture from. You will see Native American Petroglyphs and Mortar Holes left in the rock by ancient peoples. Bring your camera because the endless views of lush desert valleys and towering mountains are ones you won't want to forget.

This tour is a rain or shine event.
